- District graduation requirements
- WASC Accredited

Depending on which pathway you choose we have:

- Textbook based A-G Learning
- Discussion Boards
- Technology Based learning
- Project Based learning
- NCAA/NHS/NJHS
- Science labs

Our Goal at Parkview

The Goal at Parkview is to meet the unique needs of a variety of students, all with different learning styles, allowing them to move at their own pace, yet challenging them to complete assignments based on state and district standards, while encouraging them to achieve excellence in the pursuit of their studies. Parkview serves students from anywhere within the PYLUSD boundaries, most school districts in Orange, Los Angeles, Riverside, San Bernardino, and San Diego Counties.

Parkview School

a quality ISP

Thank you for taking time to learn more about Parkview School. We are part of the Placentia-Yorba Linda USD and we are a WASC accredited, college preparatory, voluntary public high school; very different from many schools you may have experienced before. At Parkview High School we recognize that some students can benefit from an independent study program as an alternative to daily classroom instruction, as a way in which they can earn their high school diploma. We are proud to welcome home schoolers, actors, junior athletes, the chronically ill and many others.

Our program blends the expertise of our credentialed staff with students and parents to provide personalized, individualized educational programs. As suggested by our remarkable growth, we are able to provide a flexible yet legally compliant program designed to capitalize on each child's strengths.

The keys to success at Parkview High School are a motivated student, strong support at home, and frequent communication with the school. Our faculty is available by phone, email, and on campus meetings. We look forward to hearing from you!

What does Parkview School Offer:

- A program accredited by Western Association of Schools and Colleges (WASC)
- A-g curriculum-classes taken at Parkview qualify for UC, and Cal State systems.
- College Board approved AP classes
- Textbook and online courses
- Science labs, Drivers Ed
- Graduation Ceremony and co-curricular activities
- Concurrent enrollment in our district schools, ROP and Community College
- NCAA, NHS and NJHS

Our Mission

Parkview School provides a legally compliant independent study program that helps students achieve their highest potential through offering a K-12 enriched alternative to classroom-based instruction. Our goal is to establish a partnership with parents in the education of their own child(ren), enabling them to successfully provide academic instruction to their child(ren) in the home setting. We seek to meet the unique needs of a variety of students, all with different learning styles, allowing them to move at their own pace, yet challenging them to complete assignments based on state and district standards, while encouraging them to achieve excellence in the pursuit of their studies.

Our Vision

In shared partnership with parents and students, the Parkview staff envisions an alternative learning environment that promotes academic achievement, personal and social responsibility and empowers students to meet the challenges of a changing world.

Admission

Admission to Parkview School will be open to any family who is committed to the school's operational and instructional philosophy. Prospective students and their parents will be briefed regarding the school's instructional and operational philosophy and will be given the school's student related policies prior to the enrollment with the school. A family who would benefit from an independent study program may have students who:

- Are gifted in a particular field and wish to have more time to practice an outstanding skill (an artist, athlete, actor , or entertainer etc)
- Have chronic health problems
- Have been evaluated and need different instructional strategies.
- May thrive in a non-traditional school setting
- Students should be at or near grade level and have strong study skills.
