

SECTION 01100

ALTERNATIVES

PART 1. GENERAL:

1.01 Description.

- A. Work Included: Certain Alternates have been established as described herein. These are to allow the Owner to:
 - 1. Compare costs where Alternate materials and methods may be used.
 - 2. Make a decision concerning Alternate materials and methods prior to awarding the Contract.
- B. Related Work Described Elsewhere:
 - 1. Pertinent Sections of the Specifications describe the materials and methods required under the various Alternates.
 - 2. The methods for stating the proposed Contract Sum is described on the Bid Form.

1.02 Submittals.

- A. Indicate on the Bid Form a proposal for each Alternate listed.
- B. If no figure is indicated for an Alternate, that Alternate may be accepted at no change in the Bid Proposal.
- C. Do not submit Alternates other than those described in this Section.

1.03 Product Handling:

If the Owner elects to accept on or more Alternates, make all modifications required in furnishing and installation of the selected Alternates to approval of engineer and at no additional cost other than proposed on the Bid Form.

PART 2. PRODUCTS:

2.01 Alternate Number One:

Provide all materials, labor, equipment, etc., as required for installation of tinted insulated glass in lieu of clear insulated pane glazing at all new aluminum window units.

PART 3. EXECUTION:

3.01 Advance Coordination.

- A. Immediately after award of Contract, advise necessary subcontractors and suppliers as to:
1. Nature and extent of accepted Alternates.
 2. Involved changes caused by Alternate selection.

3.02 Surface Conditions.

Prior to installation of Alternative items, verify that work has been modified as necessary to accept the installation and that items may be installed in complete accordance with their manufacturer's current recommendations; in the event of discrepancy, notify Engineer and proceed as directed.

END OF SECTION
