*Per Section 302D-12, Hawaii Revised Statutes, No person may serve on the governing board of a charter school if the person is an employee or former employee of any charter school under the jurisdiction of that governing board, a relative of an employee or former employee of any charter school under the jurisdiction of that governing board, or any vendor or contractor providing goods or services to any charter school under the jurisdiction of that governing board, unless:
 (1) The person is a former employee of a charter school under the jurisdiction of that governing board and at least one year has passed since the conclusion of the former employee's employment with that charter school;
 (2) The person is a relative of a former employee of a charter school under the jurisdiction of that governing board and at least one year has passed since the conclusion of the former employee's employment with that charter school;
 (3) The person is a vendor or contractor and at least one year has passed since the conclusion of the vendor or contractor's service to a charter school under the jurisdiction of that governing board; or
 (4) The person's serving on the governing board shall not cause more than one-third of the voting members of the governing board to be made up of:
 (A) Employees or former employees of any charter school that is under the jurisdiction of that governing board; provided that this subparagraph shall not include persons who are covered under paragraph (1);
 (B) Relatives of employees or of former employees of any charter school that is under the jurisdiction of that governing board; provided that this subparagraph shall not include persons who are covered under paragraph (2); and
 (C) Vendors or contractors who are providing goods or services to any charter school that is under the jurisdiction of that governing board; provided that this subparagraph shall not include persons who are covered under paragraph (3).

**Services for a fee would be payments made from the school in exchange for a service or product. An example would be if the nonprofit organization landscapes the school's grounds, and the school pays a fee for the landscaping. Another example would be if the school has a lease agreement with the nonprofit organization and pays rent to the organization.
