

School is back in session and so is [Breakfast in the Classroom!](#)

This is a friendly reminder of the importance of a good meal at the start of the school day. Because morning nutrition is so important, we are writing to remind you that we serve your child free breakfast every day in the classroom.

Please remind your student to take and enjoy the breakfast meal provided.

On our District website (www.mthcs.org) you can find our meal menus and other information about the Mt. Healthy food service program. Please feel free to call me if you have any questions.

Regards,

Fredrika Richardson, SNS
Mt. Healthy Food Service Director
