Dear Parents,

The State of California requires that school districts develop a Local Control Accountability Plan (LCAP). The LCAP is a critical part of the Local Control Funding Formula (LCFF), which requires school districts to gather input from students, teachers, parents, community members, and public agencies to determine the goals, actions, and budget priorities for the district. Data from the California Dashboard must be used to determine funding priorities, which are based on the State's Eight Priorities. These areas are:

1. Providing all students access to fully credentialed teachers, instructional materials that align with state standards, and safe facilities.
2. Implementation of California's academic standards, including the Common Core State Standards in English language arts and math, Next Generation Science Standards, English language development, history social science, visual and performing arts, health education and physical education standards.
3. Parent involvement and participation, so the local community is engaged in the decision-making process and the educational programs of students.
4. Improving student achievement and outcomes along multiple measures, including test scores, English proficiency and college and career preparedness.
5. Supporting student engagement, including whether students attend school or are chronically absent.
6. Highlighting school climate and connectedness through a variety of factors, such as suspension and expulsion rates and other locally identified means.
7. Ensuring all students have access to classes that prepare them for college and careers, regardless of what school they attend or where they live.
8. Measuring other important student outcomes related to required areas of study, including physical education and the arts.

Please take a few moments to provide your input into this important process by clicking on the LCAP survey as appropriate. Thank you for providing feedback on our 2017-2020 three-year Local Control Accountability Plan (LCAP)!
