RE: Compliance with AHERA Management Plan Annual Notification Requirement

On October 22, 1986, President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA), which required the Environmental Protection Agency (EPA) to promulgate the final rules for asbestos management by October 17, 1987. The final rules require that all public and private schools develop a new Asbestos Management Plan and submit it to Governor McWherter, or his designee, by May 9, 1989.

We are pleased to inform you that the Loudon County Schools have complied with all aspects of this regulation.

The Management Plan, which includes previous asbestos abatement projects, six (6) month surveillance reports, the location and condition of the remaining asbestos containing materials in our buildings, as well as the response action chosen for each, is available for your review at the following location:

Loudon County Schools Facilities and Maintenance Department
1203 West Broadway
Lenoir City, TN 37771
Brian Brown, LEA Designate
(865) 988-4077

This written Annual Notification is required by the new AHERA regulation. If you have any questions, please do not hesitate to contact my office.
