RE: AHERA Asbestos Management Plan

The Asbestos Hazard management Emergency Response Act of 1986 (AHERA) mandates that all local Education Agencies have all of their facilities inspected for asbestos and that a Management Plan be developed. This Management Plan illustrates the location of asbestos containing material and describes the course of action to be taken by the St. Landry Parish School Board in dealing with this material.

According to Chapter 27 of the Louisiana Air Quality Regulations, the St. Landry Parish School Board must notify all employees, teachers, and parents at least once a year, of the location and availability of the AHERA Asbestos Management Plan Book. Please allow this letter to serve as a notice.

This Management Plan was submitted by the St. Landry Parish School Board and was approved by the Department of Environmental Quality and is available for inspection at the main office of your school. It can be viewed between the hours of 8:00 A.M. and 3:00 P.M., Monday through Friday.

This Management Plan includes regularly updated information on all inspections, response actions, post-response action activities, including periodic re-inspection and surveillance activities that are planned or are in progress.

If you have any specific questions or need additional information, call me at the St. Landry Parish School Board Office, (337)948-3657

Patrick Jenkins, Superintendent
LEA Asbestos Designated Person
Certificate # ADP 2017-002

The mission of the St. Landry Parish School Board is to ensure high quality instruction while working collaboratively with families and communities to maximize every student's potential.
