

EVALUATION OF THE INSTRUCTIONAL PROGRAM

The Board of Education recognizes that it is accountable to the students, parents/guardians and community for conducting a continual evaluation of the curriculum and the instructional program.

The Superintendent or designee shall review the effectiveness of District programs in meeting desired outcomes. He/she shall provide the Board and the community regular reports on student progress toward Board-established standards of expected achievement at each grade level in each area of study. Based on these evaluations, the Board shall take appropriate actions to maintain the effectiveness of programs and, as needed, to improve the quality of education that District students receive.

Program Quality Reviews

The Superintendent or designee shall ensure that program quality reviews for the District schools are conducted in accordance with law. (Education Code 64001)

To prepare for a program quality review, the Superintendent or designee shall establish procedures by which a thorough self-study shall be conducted. The goal of the self-study shall be to provide accurate information about the curriculum and instructional program and their effectiveness in meeting student needs and District goals for the instructional program. This information shall be analyzed in comparison to quality criteria formulated by the California Department of Education, and a self-study summary shall be prepared for use during the program quality review.

(cf. 6010 - Goals and Objectives)

Findings from the program quality review shall be consulted during Board evaluations of the instructional program and shall guide ongoing efforts to improve the quality of curriculum and instruction at each school.

Coordinated Compliance Reviews

The Superintendent or designee shall cooperate with the California Department of Education in the conduct of coordinated compliance reviews to ensure that all District categorical programs comply with federal and state laws and regulations. The Superintendent or designee shall notify the Board of the results of these reviews.

The Superintendent or designee shall submit these criteria for consideration by the Board. If desired, each school may establish additional evaluation criteria beyond these district-wide criteria. Evaluations conducted for each school shall be presented annually to the Board.

Western Association of Schools and Colleges (WASC) Accreditation

The Board believes that accreditation by the Western Association of Schools and Colleges can foster excellence and ongoing academic improvement in the District's schools. The accreditation process also may demonstrate to parents/guardians and the community that the schools are meeting their goals and objectives and the WASC criteria for school effectiveness through a viable instructional program.

EVALUATION OF THE INSTRUCTIONAL PROGRAM

The Superintendent or designee shall undertake procedures whereby the District's schools may achieve and maintain full WASC accreditation status. The schools shall conduct a self-study in accordance with WASC requirements, cooperate with the WASC committee during a site visit, and develop and review action plans to increase the effectiveness of the instructional program for students. The Superintendent or designee shall regularly report

to the Board on the status of District schools and any WASC recommendations for school improvement.
