

LOOKING FORWARD TO 2ND GRADE!

We are looking forward to a great year in 2nd grade! Second grade is an exciting year where students begin to make the transition to independent learners. Independent reading, math skills and writing are just some of the major areas of learning this year.

In order to have a successful year, there are certain supplies we would like our incoming second graders to have. Below you will find a list of recommended items for second grade. It would be wonderful if you could provide your child with these items in the first weeks of school, and replenish them throughout the year. Due to the decrease in funding from the state, our classroom budgets have been greatly decreased and this year it is even more important than ever to have this supplemental support from our parents. We have also included a list of classroom supplies we would love to have if you could make a donation.

Thank you in advance for your support.

The Second Grade Team
