\*please no binders

Mrs. Hooper - Grades 1 - 4 Keyboarding Classes

Please be aware that your child is now receiving Keyboarding class with me during the school year. Your child has an active LCS Google for Education computer account which we access and use during class time. The students are also able to access their accounts outside of school as long as they use their LCS username, password, have an Internet connection and a computer device.

Students in these grades are encouraged to practice their keyboarding skills in class during computer lab times when available. However, if possible, practicing at home with permission from parents/guardians would be helpful as well.

Typing Club is a (free) keyboarding program website with lessons and incentives that help kids learn to touch-type without looking at the keyboard. We will use this website in addition to others in my class. There will also be additional teacher/class instruction time in regards to keyboarding. The Typing Club program is very good and gives feedback to the student while typing.
