

SUMMER SCHOOL TEACHERS

Qualified and properly credentialed teachers will be employed by the district on an hourly basis to provide instruction in the district's summer school program.

Summer school teachers shall be approved by the Board of Trustees upon the recommendation of the chief district administrator. The chief district administrator, in arriving at his/her recommendations, may seek the advice and counsel of the principal of the summer school.

No experience gained in summer school shall count toward attainment of permanent status in district summer school or regular year schools.
