Additional Information Regarding Exemptions for ALL students:

- Exemptions do not entitle students to be absent the day of the assigned final. Attendance will be taken and students will be expected to be present in class on the day of the examination to complete the exemption process.
- Any student may opt to take a final examination in a course for which he/she has earned an exemption. When doing so, the exemption will be expended and the score obtained on the final examination will be used in computation of the final course grade **ONLY** if doing so would improve the student's course average.
- Students who have received a grade and/or disciplinary penalty for cheating or plagiarism as defined by the Academic Honor Code are automatically excluded from an exemption in the class in which the incident occurred.
- A student will be notified by his/her assistant principal (after the AP has conferred with the teacher) if his/her exemption is being revoked after the deadline for turning in exemptions.
- Dual Credit Classes are excluded from the Exemption Policy**

Spring Semester Exemptions for AP/IB Classes

- If students sit for the AP/IB exam, the exemption grade requirement changes from an 80 or above to passing, and the students must meet all additional exemption criteria.
