

May 2019

Dear Fifth Grade Families:

We are so excited to have your children in our classrooms next year! Attached is our supply list. Most class information will be posted on our websites, and communication will be through Remind and email. Communication is vital to student success, so please contact us with any questions or concerns.

One of the most exciting developments is the growth and maturity that occurs within each child. In our classes, independent as well as group activities and interactions are all part of the learning process. Each of these settings provide productive struggles that lead to more in-depth understanding of the concepts they need for success in fifth grade and future educational endeavors.

Rutherford County Schools offers Microsoft 365 tools for you and your child. Preparing 21<sup>st</sup> century learners as positive digital citizens is vital to their future success. Our students will use these Microsoft tools as an integrated part of the curriculum and will begin learning about our expectations regarding digital citizenship within the first weeks of school. It is an exciting opportunity for our children! Please let us know if you ever have questions about our digital assignments. Your children are amazing tech explorers, and they LOVE sharing their knowledge.

To have a successful fifth grade year, please make sure your child has a grasp of basic addition, subtraction, multiplication, and division with facts. Khan Academy, Xtra Math, and Prodigy are free online tools that are great for practicing basic facts as well as pushing them forward as they succeed. Also, encourage your child to read and write about anything that interests them. Let them create, dig deep into a topic, and create some more!

Ultimately, our goal is to prepare our students for middle school by helping them become independently driven learners. Thank you for letting us guide your children through the next phase of their intellectual development.

Sincerely,

Mrs. McHenry
