Digital Citizenship Week

Dear Lemon Grove School District Community,

Digital Citizenship week kicks off on Monday, October 16th. One broad definition of digital citizenship is "the norms of appropriate, responsible behavior with regard to technology use." In Lemon Grove School District, we believe being responsible digital citizens is important for all members of our school and community. When we teach digital citizenship to students, we help create a positive school culture that supports safe and responsible technology use. Please navigate our resources to find ways to support learning. And, as always, check us out on Twitter...Lemon Grove School District is the #bestschoolistrictonearth!

Yours in Education,

Dr. Kimberly Berman
Superintendent
