Mazie Gable Elementary School

May 1, 2019

As we come to the end of another school year, it is important to reflect upon how far our students have grown due to the service provided to our children by the staff at Red Lion Area School District. If you have time, please take some time over the month of May to reach out and thank a staff member (teacher, bus driver, paraprofessional, etc.) for their efforts. We appreciate all of your help and support, and our success is also in large part because of you!

The Elementary Administrative Team

1/2 Day Kindergarten and Grades 1-6

The Reading Corner

Did you know that many students in our elementary schools return to school in August and can't read the same books they could read in May? Why? **Summer Slide!**

Summer Slide is what we call the amount of learning students lose over the summer.

Research has shown that reading every day is more effective than summer school! We challenge you to read 800 minutes this summer. If your son or daughter completes this challenge and returns [a reading calendar](#) on August 20th at Meet the Teacher Night, he or she will be invited to a special celebration.

Happy Reading!

Transportation for the 2019/2020 School Year

The Transportation Department requests that you complete and submit a new babysitter/split custody transportation request form each year if you are utilizing a babysitter/daycare provider or split custody. You may obtain a copy from your student's school or the district's website or [here](#). Forms are requested to be received by June 14, 2019. If we do not receive your request, then your student's stop will revert back to the home stop. Thank you for your assistance in ensuring we have the most updated information for your student(s).

There are times when we are asked if a new stop can be made. This type of request does take a minimum of two weeks to coordinate and process the information (weather permitting). Such requests would require us to go out and look at a house location to make a better determination if the request can or cannot be done. We ask if you would help us locate you easier, by ensuring your address is clearly posted, and no less than 3 inches tall and visible from both directions and not obstructed from trees, shrubs etc...

Please remind your student(s) of proper bus stop behavior by standing at the stop, and not playing games or horsing around and not going onto or disturbing someone else's property. Also, please remind your student(s) there are several bus rules and one of them are that there is NO food nor drink permitted on the school bus. There is the potential for another student to have an allergic reaction to that item.

Approximately two weeks before school starts, the transportation department will send out an email with your student(s) most current stop location/time information. Please remember to ensure your student(s) are at the assigned bus stop 5 minutes prior to their stop time and ready to board the bus. Please do not utilize another stop without prior approval from the transportation department. Also, keep the school and your Skyward data updated with your most current phone number(s) and email address(s) to enable prompt communication. If you do need to make a stop change, please submit that in writing to the transportation department and allow a minimum of 2 weeks for the changes to be made. If you have moved, please ensure you have contacted Pupil Services with this information and they will relay on the address change to transportation. Again, expect any changes in transportation, if needed, to take approximately 2 weeks to be completed.
