The Week in Review
May 3, 2019

Superintendent’s Reflections

The Marshall Plan for Talent is a revolutionary approach to better prepare Michigan students and adults for the jobs of today and tomorrow by investing millions of dollars over the next five years to support educators and businesses who create innovative programs for high-demand, high-wage careers. Innovation Grants were offered to address these goals, and nearly 800 grant applications were submitted from all around the state. Approximately 23 consortium grants made it to the final phase, and 9 of those were awarded and funded. Center Line Schools partnered with Armada and Fraser to write a grant that would serve all of the students in all three districts, and our grant was chosen for funding!!!

The focus of our grant increases opportunities for career exploration through MI Bright Future, a real-world career development tool that also provides students with opportunities to communicate directly with employers. Companies can use MI Bright Future to connect with our students and fill positions where talent shortages exist. The grant money affords us the opportunity to get our students out into business and industry to tour, job shadow, and intern with masters in the career fields of our students’ interest. Through the grant we are sending 24 students interested in healthcare to “Camp Scrubs” at Macomb Community College this summer to experience many careers within the medical field. This self-exploration coupled with exposure to those working in careers will assist them to make informed decisions about their futures. We can then help them to understand what it will take to realize their dreams and connect them with those who can further their opportunities.

With mass shortages projected in information technology, computer science, manufacturing, healthcare, and the skilled trades, we are committed to educating our students for in-demand, 21st century economy careers, and the Marshall Plan for Talent Grant increases the resources that will allow us to do more for our kids.

A portion of the Marshall Plan grant money will be used to further our work with competency based learning, which includes systems of instruction, assessment, and grading that are based on a student’s ability to show mastery of the skills and dispositions and then move along the continuum of learning. The idea is that age ceases to lock students into a specific grade level but rather their demonstration of mastery is what is necessary to move forward. If students do not demonstrate mastery, then the material is retaught and retested. Students must demonstrate the knowledge and skills deemed necessary to be successful in post high school careers and/or college in order to graduate.

We worked very hard to write a comprehensive grant that would allow us to increase the work that all three districts have been doing. We have committed to a focus on our students’ post high school future, and the grant has made it possible to expand opportunities both inside and outside of the classroom.
The mission of Center Line Public Schools is to provide all students relevant and challenging learning experiences to inspire success and empower them to be leaders of tomorrow.

Week in Review, page 2
**CLHS Happenings**

**Students Earn Certifications**

Thirty-seven students were ServSafe certified at the end of March in Mrs. Haugh’s Nutrition Science class. This certification is administered by the National Restaurant Association and is a basic credential for the food service industry.

Lifeguarding students working toward their lifeguard certification welcomed Roose and Wolfe students to swim last Friday.

**Art Field Trip**

AP Art and Graphic Communication students had the opportunity to visit the Detroit Institute of Arts (DIA) last week, another great learning experience for our students!

**HHS Fair**

CLHS hosted a health and science fair that invited freshmen and sophomore students from the surrounding high schools to explore careers related to health and human services. Our students hosted and attended these sessions and did an amazing job of both representing our school and learning about these careers.

Dr. Terri Karam, Director of Special Services for CLPS, welcomed the students and teachers from the other high schools in the morning. Mr. Watts from CLHS demonstrated the use of stethoscope and how to do CPR. Other sessions included a dental hygienist, an occupational therapist, a nurse assistant, and information about various health related options offered at MCC and other schools in the area.

Mrs. Koch (Academy 21), Mrs. Harris and Mrs. Jaradi (CLHS), Ms. Kim Lysick (Pre-Employment Transition Services), and Ms. Robin Long (JVS-Jewish Vocational Services) helped organize and host this successful event that highlighted the great work that CLHS is doing in providing our special needs population with opportunities to explore careers in high demands for their post secondary lives.
Students from Mrs. Haugh’s Teacher Cadet class attended the Future Teacher Conference at Oakland University. They had the opportunity to attend various sessions and tour campus while learning about their education program. Hopefully some of these young adults will be back in our buildings as teachers in the future!

Now Playing: Hairspray

Some sneak preview pictures of HAIRSPRAY, the musical our drama club will be performing this weekend! See more pictures on the CLHS Facebook page. Please join us Friday or Saturday night at 7pm or Sunday at 3pm! Tickets are $5 for students/seniors and $7 for adults, available at the door. Y’all come!
WEB
Seventh graders had a taste of WEB (Where Everyone Belongs) last Thursday. Students were able to play some of the games that they will play as WEB leaders during 6th Grade Orientation in August.

Softball Success
Wolfe Lady Warriors have been having a rocking season! Here are a few shots of their 6-3 victory over Page Middle School. See more pictures on the Wolfe Facebook page!
**Roose Roundup**

**CLDPS Chief visits Roose**

As part of our career introduction lunch-and-learn program, Chief Myszenski, Director of Center Line Department of Public Safety, visited Roose to speak about his experience as a police and fire chief. Chief Myszenski answered a lot of great student questions and gave away trading cards featuring Murphy, Center Line’s canine officer.

**Immigrant Student Field Trip**

Students who have been in the country for fewer than three years are able to go on special field trips with grant funds. This week 32 students visited the Arab American National Museum, a 1970s exhibit at the Macomb Cultural Center, as well as the Morley-Sanders Chocolate Factory! They had a groovy time!

**Peck Points**

**Focus on Lit**

Peck’s school-wise shared writing based on RL Stevenson’s poem “The Swing” continues!

*We are writing something about how we feel when we ride down the slide.*  --Aurora N

*This is a car game and you have to listen. They are teaching us about listening which is important so you can learn!*  --Brooklyn M.
Zoo Trip

Last Friday, our Transition Based Preschool and Early Childhood Special Education classes enjoyed a field trip to the Detroit Zoo. Despite the cooler temperatures, the children persevered and delighted in the experience. Mrs. Karam and Ms. Gabby’s TBPS class just completed their Zoo Animal study, so it was the perfect event to reinforce concepts that students learned and see animals in their environments.

Spring Concert

The ECC held its annual Spring Concert last week at the high school. The auditorium was full of excited parents looking to see their little one perform. Students were enthusiastic, ready to step on stage to sing and dance for family and friends. Our littlest learners enjoyed this experience as much as those watching it. It was a first for many of them and they reveled in the spotlight! See more pictures on the ECC Facebook page.

ECC Alumni Liam Landoski stopped in to show his support for his cousin at the Spring Concert.
RECREATIONAL MARIJUANA: WHAT MINORS NEED TO KNOW

In the state of Michigan, any consumption, possession, cultivation, or transportation of recreational marijuana is prohibited by those under 21 years of age.

First Violation:
Civil Infraction punishable by a $100 fine and forfeiture of the marijuana

Second Violation:
Civil infraction punishable by a $500 fine and forfeiture of the marijuana

Additional Consequences:
Once a minor commits two of these violations, every following violation will result in a misdemeanor that is a criminal offense, which stays on your record.

This can hurt your chances of receiving scholarships, financial aid, and college acceptance.

Legal Consequences
Further penalties include community service and completion of drug education or counseling.

If a person possesses, cultivates, or transports twice the amount allowed for those 21 or older, regardless of age, that person will be subject to a misdemeanor.

YOU HAVE A BRIGHT FUTURE AHEAD OF YOU; DON’T LET MARIJUANA GET IN THE WAY

LEGAL OVER 21
- Transport 2.5 oz in public after purchase in a sealed container
- Give as a gift
- Have 10 oz and 12 plants in your home that are non-visible to the public

ILLEGAL
- Smoke in public
- Driving under the influence
- Use under 21 years old
- Sell or use as a promotional item

LEGAL AND FINANCIAL CONSEQUENCES

First Violation:
Civil infraction punishable with a fine up to $500

Second Violation:
Civil infraction punishable with a fine up to $1,000

Third Violation:
Civil infraction punishable with a fine up to $2,000

If a person possesses, cultivates, or transports twice the amount allowed, 2.5 oz, regardless of age, that person will be subject to a misdemeanor.

LOSS OF EMPLOYMENT
Employers can still drug test for a multiple array of substances which can result in termination.

Substances that are commonly tested include:
Nicotine, Alcohol, Cocaine, Marijuana, Opiates, Amphetamines, Methamphetamines

DON’T USE AND DRIVE
Driving under the influence is considered drugged driving, and police officers will pull you over.

Blood testing can be done to check if there is marijuana in the driver’s system. Any charges would stay on the driving record, similar to alcohol.

On average, 35% of passengers have reported riding with a driver who was under the influence.

MARIJUANA USE CAN IMPACT DEVELOPMENT OF CHILDREN

According to the American College of Obstetrics and Gynecology, marijuana use during pregnancy can increase your risk of miscarriage or still birth.

BEFORE YOU RISK IT: KNOW THE LAW AND GET THE FACTS.

**Kindergarten Registration**

**Wednesday, May 15, 2019**

Center Line Administration Building  
4:00—8:00 PM  
26400 Arsenal, Center Line, MI 48015

**Will your child be 5 by September 1, 2019?**

If so, he/she is eligible to attend Kindergarten next year! Center Line is a SCHOOL OF CHOICE DISTRICT for Macomb County residents for kindergarten. To register your child, bring the following documents: a copy of your mortgage/lease, current bill, driver’s license, the child’s original birth certificate, hearing and vision test, and the shot record to this event. You can also complete the on-line registration portion prior to the event. Please call Sarah Ogden at 586.510.2043 or Jan Fix at 586.510.2040 with any questions. All registered children will receive an invitation to our “Explore the World of Kindergarten Night” on May 20, 2019.
