### Principal's Message

Marina Vista Elementary Arts Academy nurtures creative thinkers and innovative scholars through the arts to reach their whole potential. We value the partnerships between parents, staff, students, and our community. Each group has a role with the common focus: All students will be successful learners. It is through reading, math, science, social studies and The Arts, that children develop important character traits such as courage, confidence, and creativity. These traits contribute to student academic success in all subject areas.

This year Marina Vista Elementary Arts Academy joined the Kennedy Center for the Performing Arts program - Turnaround Arts. Turnaround Arts brings arts education resources into priority schools as a strategic tool for targeting larger school challenges and opportunities. As a school of the arts, we empower students to cultivate a passion for learning through the arts. The school is dedicated to ensuring equitable access to the arts through daily classroom arts integration into the core curriculum, as well as a positive behavior approach centered on mindfulness. We are a school community that encourages the arts as an avenue to promoting expression, identity, and culture for our student artists.

Our staff is committed to inspiring all students to be lifelong learners. Any student that needs help in understanding specific academic subject, is assisted in Response to Intervention (RTI) and small group instruction. These models provide opportunities for each child to receive instruction at their personal level. Through these models and our creative scheduling, teachers give a more focused approach to meet students' needs. Every week teachers collaborate to plan, assess, and implement teaching practices to improve student achievement in language arts and math. We also have English Language Development each day dedicated to advancing a child's speaking, listening, reading, and writing skills.

One of our school's favorite program aimed at literacy is Monterey County Reads. The program trains and sponsors volunteer readers for first to third grade students, providing the one-to-one reading help that benefits struggling readers. In other subject areas, teachers engage and broaden the English language and cultural experience so students widen their vocabulary for a better understanding of their surroundings.

Marina Vista Elementary puts grade level Common Core Standards first and The Arts. We support the research that comes from the United States Department of Education and the California Department of Education. We believe, like our associate institutions, in focusing on teaching children all grade level standards and skills they need to succeed at work, at home, and in the community. We applaud those that have given their time in support of our students, and welcome you to join us. When people work together not only do our children prosper, but so does humanity.

## About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

### Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

Monterey Peninsula Unified School District held a public hearing on August 2018, and determined that the school had sufficient and good quality textbooks and instructional materials, pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in August 2018 about the quality, currency, and availability of the California Common Core standards-aligned textbooks and other instructional materials used at the school.

### School Facility Conditions and Planned Improvements (Most Recent Year)

In 2010, the Monterey Peninsula Unified School District overwhelmingly approved Measure P, a \$110 million locally-controlled school bond measure to fund the first phase of critical repairs and improvement to our local schools. The district's newest school was built in 1965, more than 50 years ago, and our Facilities Needs Assessment has identified over \$680 million in critical repairs to all MPUSD schools. Recently, in 2018, voters approved Measure I, a \$213 million school facilities bond by 70%.

In 2019, the district is working with stakeholders to prioritize its facilities projects. Visit [www.mpusd.net](http://www.mpusd.net) for additional details.

More facts about the condition of our school buildings are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the Office of Public School Construction (OPSC) and were brought about by the Williams legislation. You can look at the six-page Facilities Inspection Tool used for the assessment on the Web site of the OPSC.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

2017-18 CAASPP Results for All Students						
Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
ELA	33.0	29.0	38.0	39.0	48.0	50.0
Math	20.0	21.0	27.0	27.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students						
Subject	Percent of Students Scoring at Proficient or Advanced (meeting or exceeding the state standards)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
Science	N/A	N/A	N/A	N/A	N/A	N/A

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Grade Level	2017-18 Percent of Students Meeting Fitness Standards		
	4 of 6	5 of 6	6 of 6
5	18.0	16.4	14.8

\* Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

<b>Students with Disabilities</b>	37	37	100.00	5.41

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

### **C. Engagement**

#### **State Priority: Parental Involvement**

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

#### **Opportunities for Parental Involvement (School Year 2018-19)**

Our school's annual plan and budget approvals are made by our School Site Council, which includes parent members which, meets 4 times a year. In addition, we have an English Learner Advisory Committee (ELAC) to help parents of students learning English feel welcome and promote involvement at our school. The ELAC meets four times a year.

Our PTA meets monthly and provides outstanding support to our students and staff. The PTA is very active and has helped fund our assemblies, and supports many other activities. New members in all these groups are always needed and all meetings are open to the public. Parents are also encouraged to volunteer in their child's classroom or in the office during the school day. All volunteers are required to attend training and receive a volunteer handbook to guide their work.

Volunteers are always welcome to help in the classroom. You can contact our office at (831) 392-3580, we would love to have any volunteers assist our students.

#### **State Priority: School Climate**

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

#### **School Safety Plan**

The safety and well being of students and staff are high priorities for the Monterey Peninsula Unified School District and this school. Under Senate Bill 187, every school in the district is required to complete (or review and update) a School Safety Plan by March 1 of each year. The plan is reviewed and evaluated by the School Safety Planning Committee, the School Site Council, and the school principal before being presented to the Board of Education for final review and adoption. The approved plans are posted on each school's website, as well as the district website at [www.mpsud.net](http://www.mpsud.net).

Highlight's of this school's plan are detailed below.

Student/Parent Handbooks are available in our office and online at [mpusd.k12.ca.us](http://mpusd.k12.ca.us), giving information on the school and safety rules. Staff members monitor our playground and campus before school, after school, and during recess. Our positive reinforcement and discipline policies curtail fighting and harassment. We routinely go over playground safety rules with students, and we practice fire drills monthly and conduct ALiCE and earthquake drills twice a year. We update our Safety Plan at the beginning of each year and this year will be revising the plan to reflect the District Safety Plan.

PBIS (Positive Behavioral Interventions and Supports) team meets regularly to evaluate site safety and students' behavior to support a safe and positive environment for our staff and students.

Parents have been informed about how to respond to school emergencies. Our staff and students practice emergency drills and evacuation every month. Our staff is trained in various crisis and emergency management process and procedures.

We also have a Crisis Management Plan in place for every staff in case of an emergency.

Each year, the school along with the School Site Council reviews and adopts a Comprehensive School Safety Plan. This plan details specifics on how the school, staff and students will respond during any emergency.

We participate in Safe Routes to School, which teaches our parent and students how to come to school safely everyday.

### Professional Development provided for Teachers

Teachers participate in professional development each year to improve their teaching skills and to extend their knowledge of the subjects in math, language arts, English language development and The Arts. We are focusing on first best practices, Positive Behavior Interventions and Supports, small group instruction, guided reading, Visual Thinking Strategies (VTS) and The Arts. At Marina Vista Elementary, you will see the amount of time each year we set aside for their continuing education and professional development.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

### Types of Services Funded

A majority of funding reported as districtwide costs is expended for school level expenditures, therefore the results appear to be lower operating costs at the school site level.

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
