Please note that we can only process paychecks from legible, properly completed, and signed time sheets. You also must have a completed I-9 and W-4 on file before working, and thus before receiving a paycheck.

Payday is semi-monthly on the 15th and on the last day of each month. If a payday occurs on a weekend or holiday, payday is moved up to the last business day that precedes the weekend or holiday. During summer vacation, paychecks are mailed the day prior to payday, and if there are no mail delays, should be received on payday. Check the address on your paycheck; if it is incorrect, it is your responsibility to let us know. The payroll system is separate from the school system and is not automatically updated. When school is in session, paychecks are available for pickup on payday.

Paychecks are processed three business days prior to payday and we only issue paychecks for work weeks that have ended prior to processing payroll. This means that you will not necessarily receive pay for all days worked prior to payday. Time worked for weeks not ended by the time payroll is processed will be on your next paycheck. It is a good idea to keep copies of your time sheets to use the payroll schedule to understand which weeks you have received pay and which weeks pay is outstanding.
