

The 8th grade advanced theater has created a theater company called Loud Mouth Productions. They have created a mission statement that reads:

We are a diverse passionate close knit group of young unique performers, looking to inspire, entertain, and have fun. We are dedicated to bringing the energy and excitement of a Broadway production to junior high stage. We want our audience to believe in our characters and the stories we tell and to leave knowing that we “owned it!”

They are starting to work on an upcoming musical called ***‘Rock of Ages’***. It takes place in the 80’s with great rock music like *Don’t Stop Believing*. The performances will take place in May.

Alongside the acting roles, Loudmouth is also breaking out into exploring how we use the technical aspects of theater to bring the show to life. We have a whole Technical team too! We can’t wait to get started!
