Inter-district transfers are a privilege granted by the receiving district, and not a right of students living outside of the district. Lazbuddie ISD retains the right to accept or reject any transfer application, based on an individual evaluation of:

- The availability of space and instructional staff;
- The student's disciplinary history, including violations of the Student Code of Conduct, violations of extracurricular activity rules, tardiness, ability to follow classroom rules, and completion of homework or other activities as instructed by teachers or coaches; and,
- Attendance records, including attendance at school (including compliance with State attendance laws), attendance at extra credit activities, required summer trainings, and other activities or events for inter-district transfer students as may be required by the Superintendent or designee.

All information requested by Lazbuddie ISD must be submitted by parents two weeks prior to enrollment.
