Teacher's Corner

Our Third Graders will soon be studying **perimeter** when we return from the Christmas Holiday break. *Perimeter is the total distance around the edge (outside) of a figure/object. This is true whether the figure is a simple figure like a rectangle or hexagon, or if it is a complex figure like the floorplan of a house. Over the Christmas Holiday break I encourage you to work with your child to practice finding the perimeter of objects around the house and/or neighborhood.*

Happy Holidays & Merry Christmas!

-Ms. Rice
