

March 12, 2020

VT Community,

In the interest of the health and safety of our students, staff and our local community, we are extending Spring Break to include next week, March 16-20. On March 11, the World Health Organization declared the novel coronavirus a pandemic and the Centers for Disease Control has issued new guidance for containment and mitigation strategies. Based on these recommendations, it is in the best interest of our school community to remain closed through next week. In addition to this, all extracurricular school events scheduled for next week will be cancelled.

The situation is evolving daily and we will communicate frequently. Our plan going forward will be communicated prior to Monday, March 23.

Please do not hesitate to reach out with questions or concerns. You can email me directly at dwilliams@villagetechschoools.org. Take care of yourselves and your families as we work to navigate this event that is unprecedented in our post-modern world. Though we are practicing social distancing in the physical sense of the word, this is where we come together as a community to support one another.

Sincerely,

David Williams
Superintendent
