

Come and See! The Catechesis of the Good Shepherd:

“My experience as a child was the traditional religion class on Wednesday nights. Once I had children, I knew I wanted to give my children something more. This past summer, I began the training for Catechesis of the Good Shepherd to help deepen my children’s relationship with Christ and bring some of the concepts into our home. While taking the training I quickly realized what I had been missing all of these years, an encounter of Christ’s love. My heart was moved to help with the program and I had the opportunity to be a witness to the beautiful work in the Atriums this year. In my wholehearted opinion, every child should get to experience Christ’s love through the beautiful curriculum of Catechesis of the Good Shepherd. It’s changed my heart and relationship with Christ and I will be forever grateful.”

--- Missy Brown, Level I Catechist

As the adult in our atrium or classroom, we become co-listeners to the Word of God to be nourished by the child’s responses of essentiality and joy. They show us a special manner in which to be with God. They show us the fundamental values of religious life. We come to discover or rediscover the presence of God in our life as the source of deep enjoyment.
