

SEMESTER TWO - 2019
FINAL EXAM STUDY GUIDE

The SLD final exam is a compilation of questions, problems, and situations that have been taught and practiced throughout the semester. Students will be allowed to use study guides and previously completed work. When appropriate the exam will be differentiated and personalized as needed. The exam is weighted as 20% of the student's grade.

The exam provides feedback on skills and knowledge students have mastered while guiding future lessons that may require more time, review or ongoing focus. In addition, the exam provides students the opportunity to practice and demonstrate learned academic/study skills that are embedded in lessons throughout the semester.

If your son or daughter has attended class on a regular basis, completes work in a timely manner and takes personal responsibility for learning, they should expect this to be a successful challenge.

English/Reading

Watson's *Go to Birmingham*

Individual Reading Books

Capitalization

Beginning of sentence

Books, Titles of people

Other proper nouns
