

Lynchburg Elementary School Car Rider Drivers

The Lynchburg Elementary staff is trying to make steps to make sure that all kids are safe while being at LES, while doing this we need to eliminate vehicles being parked on Mechanic St, so in case of an emergency at the school the emergency vehicle equipment will be able to travel up Mechanic Street safely. In the past vehicles have been able to line up in the Baptist church parking lot , and around the church, if that is full when you arrive, please go and turn up Sprigg's street , and form a line at the cemetery until the buses are lined up.

Also to help try to keep all kids safe the speed limit has been changed and is posted to the new 10mph limit, please obey these speed signs, and remember the new **Hands Free Cell Phone LAW**.!!!

When you come to pick your child up in the afternoon, there have been lines painted in the bus parking lot for you to line up in. The first vehicle needs to line up in the left lane and the others should follow it till the vehicles get to end of the lines, when that lane is full the next vehicle will go to the next lane to the right. The vehicles that are coming in later should not go in behind the lines to the left; these vehicles should keep filling the lines up on the right side. The reason for this letter is that we have had drivers to go into the left lanes when the right lanes are not filled up. Please just remember that if you were in line waiting to pick your child up, you would not want any one cutting in front of you.

It would be a benefit if you would not show up till after 2:45 because the buses are lined up at that time, also if you are having someone else pick up your child that doesn't usually do it (Grandparents, aunt/uncle, etc) please advise them where to go.

Please remember this is for all kids safety including yours !

Thanks for your cooperation with this matter.
