Dear Parent/Guardian,

This year we have officially launched the use of a parent-teacher-student communication application known as “Bloomz” school-wide. This application will allow deeper collaboration between staff and families to help ensure the success of our students. All teachers and counselors are utilizing the system to communicate important information with students and families. Some information you may be notified of through Bloomz may include:

- Homework reminders
- Important date reminders
- Class announcements
- Key files for courses (syllabus, for example)
- Images of class interactions or projects
- Need for volunteers
- Behavior or academic concerns

In addition to being able to receive notifications from teachers, parents can also directly message teachers. Middle and high school students also have the ability to send direct messages to their teachers, similar to other apps that teachers have used in the past. The application can be accessed through two means: the [website](#) and the phone application.

Yesterday parents and guardians should have received invitations to collaborate with their student(s) teachers through the application. If you have not already received an email or text message with an invitation to join Bloomz, please reach out to us so we can ensure we update your contact information in our system. Additionally, please let us know if you need additional support in utilizing the app.

Sincerely,

*Frank Green, Principal*

*Sarah Brown, Assistant Principal*
