

News from the Nurse

Just a reminder...pursuant to N.J.A.C. 8:57, children six months through 59 months of age, attending any child care center or preschool facility, must receive at least one dose of influenza vaccine before December 31 of each year.

Students who do not receive the vaccine by December 31 will be excluded from school for the duration of the flu season or until they receive the vaccine.

Please send documentation of immunization to the health office when your child is vaccinated.

Dr. Ronald Cauchard and I will begin our annual school wide vision screening later this month. Parents who do not want their children to participate must notify the health office in writing.

Thank you for your cooperation.
