Our experienced staff of teachers are dedicated to providing every child with the best educational opportunity possible.

Children grow and develop at different rates. It is important to look at the whole child; academically, developmentally, emotionally, and socially. Children will be assessed in their strengths and challenges, while promoting the concept of being the best that they can be striving to reach individual goals.

Our Evergreen School vision is committed to providing a nurturing community in which students, teachers, and parents respect and support each other. Each individual is challenged to learn and grow in a safe environment.
