Welcome back to a brand-new school year! This year is unlike any other at CCPrep and in our world. We are trying new and exciting things to help everyone complete their training and education and stay on track to meet their goals. At CCPrep we are a family and will get through this together. We commit ourselves to you and we ask you to stay strong, commit yourself to your studies, follow the official health and safety guidelines to protect yourself and your family, and reach out to us whenever you need assistance.

As a school community we might be working on computers or talking with one another by phone for the first part of the school year, but soon we’ll be back in the building working with one another in person. We know that this is difficult for some, but remember these are only temporary measures! Until we return to in-person learning, we want to make sure you have every tool you need to succeed in and out of the classroom. We make the following promises to you:

1. **Laptops and WiFi for ALL.** Each enrolled student will receive a laptop computer, carrying bag, computer charger, and support getting internet access. These tools will help you work toward achieving your goals.

2. **Office Hours for Teachers.** Students will have dedicated time to talk with a teacher for help with assignments either on the phone, through a virtual chat on the computer, or some in-person meeting times at the MCT Campus.

3. **Employment Support.** We are hiring a full-time Employment Specialist who will support students who are close to completing their programs with finding potential employment opportunities, including help in the application and interview preparation processes.

4. **Program Completion Incentives.** If you complete your program and earn a GED, training certification, or other credential we will celebrate you achieving your academic goals.

We can do this together and no challenge is too large for us to work through as a family. We will be contacting you much more than you may be used to because we want to make sure you are making progress in your program studies, that you have what you need to be successful, and let you know we are all in this together.

We will get through this. We got this. We are CCPrep Strong!
