

ADMINISTRATION REGULATION
RESPONSIBLE USE OF TECHNOLOGY

PURPOSE:

This regulation is set forth in support of School Committee Policy IJNDB - Use of Technology Resources and Instruction: Responsible Use Policy and serves the purpose of identifying certain, but not all, of those actions and/or activities which are considered by the North Kingstown School Department (NKSD) to be responsible uses of technology. The primary purpose of the NKSD computer-based communications network is to support research, education, and communication by providing access to unique resources and an opportunity for collaborative work. Each individual's activity on the network must be in support of these objectives.

The North Kingstown School Committee believes that technology offers vast, diverse, and unique resources to both students and staff. Our goal is to promote educational excellence in our schools and to graduate responsible digital citizens. The NKSD will advance academic achievement and 21st century skills by purposefully aligning pedagogy with use of technology and by facilitating innovation and communication.

REGULATIONS: 1. All NKSD network users and users of NKSD supplied computers or electronic devices are held accountable to the Responsible Use Agreement. All students and parents will sign, or electronically sign, the Responsible Use Agreement.

The signature(s) on the attached document is (are) legally binding and indicates the party (parties) who signed has (have) read the terms and conditions carefully and understand(s) its significance. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards children should follow when using these resources. It is our expectation that students will access the Internet only as directed by NKSD staff. Parents/guardians should discuss these guidelines with their child. In regards to staff, it is the School Committee's expectation that the resources be used foremost and primarily for job related purposes.

2. Sanctions are not limited to the sanctions listed in the Responsible Use statement.

3. Any activity, which may be in violation of federal or state law or NKSD policy, or intentionally disruptive to the normal operation of the NKSD instructional process, the Responsible Use Policy, or the Internet will be considered unacceptable.

NORTH KINGSTOWN SCHOOL DISTRICT
RESPONSIBLE USE AGREEMENT

IJNDB-R

GUIDELINES

1. The use of the North Kingstown School Department (NKSD) computers is a privilege which may be revoked at any time for inappropriate conduct. Such conduct includes, but is not limited to, the placing of unlawful or disruptive information on or through the computer network and the use of obscene, abusive, pornographic, or otherwise objectionable language or images in either public or private files or messages. The administration of each school will be the sole arbiter of what constitutes disruptive information as well as obscene or objectionable language or images.
2. All users must behave in a legal and ethical manner at all times. Users agree to adhere to all federal copyright rules. Any costs, liability, or damages caused by the way the user chooses to use his or her network access is the sole responsibility of the computer user.
3. Each school in the NKSD reserves the right to add to or to change network guidelines for safety or educational reasons without notice.
4. The computers and the computer services owned by the NKSD and NKSD provided email accounts are intended for educational use of its patrons, and any commercial or other unauthorized use of those services and materials, in any form, is expressly forbidden.
5. Computer users are responsible to protect passwords by not sharing them, posting them in conspicuous places or making them obvious. The Information Technology Department will determine appropriate password change procedures and frequency.
6. Users are responsible for ensuring that the storage of confidential information on electronic devices is limited, and for ensuring the physical and electronic security of confidential information provided to or created by them.
7. A policy of Internet safety is being enforced, which includes measures to block or filter Internet access for both minors and adults to certain visual depictions including obscene, pornographic, or materials that are harmful to minors with respect to use of computers with Internet access.
8. Penalties for inappropriate computer use and/or the damaging of the School Department's computers and computer network will be strictly enforced up to, and including, expulsion from school, financial restitution, or any other actions or restrictions as deemed appropriate by the NKSD.
9. Note that electronic mail (email) is not guaranteed to be private: People who operate the School Department network do have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
10. The NKSD makes no warranties (expressed or implied) with respect to network services or the content of any device or information received from the School Department network.

11. The NKSD permits personal use of the network and internet so long as it occurs on personal time, does not interfere with NKSD activities, and is not otherwise prohibited by established policies and procedures.
