TODD HILBERG, SUPERINTENDENT

Attention parents and guardians of Columbia School District students:

In the Fall of 2018, the Washington State Office of Superintendent of Public Instruction (OSPI) redesigned the State Report Card. The purpose of the State Report Card as described by Washington State Superintendent Reykdal is to, "...share information about our K–12 schools. It is important for you—parents, educators, families, community members, and students—to have information to engage with your schools at the local level. You will see how students at your local school or district performed on our state test, the number of students enrolled, the race and ethnicity of the students and educators in the school community, and much more. I hope this information is empowering."

To access the Columbia School District Report Card data, please use the following link (<http://washingtonstatereportcard.ospi.k12.wa.us/>) to access our district information. There you will find both state and district level data including how my school is performing, review historic data back to 2014 as well as request additional data. To view specific building information, please scroll to the middle of the page and type in the specific school building name you wish to look up in the follow area you see below.

I want to see data for a school or school district

School or District Name:

[clear](#)

[See all schools and districts](#)

If you have any question regarding the OSPI State Report Card or its information, please contact the Columbia School District at 547-2136.

Sincerely,

Todd Hilberg
Superintendent
Columbia School District
