Hand Sanitizing Stations
Hand sanitizing stations are available throughout hallways and all entry ways

Surface Mitigation
Disinfecting of high touch areas throughout each day; Clorox 360 spray 2-3 times each week

Isolation Rooms
Available for individuals who may be displaying symptoms while awaiting pickup

Water Fountain Decommissioned
Students encouraged to bring water bottles from home

Controlled Traffic Patterns
Maintain physical distance between students and staff

Flooring
Antimicrobial floor applications, where floor finish is applied

Additional Mitigation Measures
Including virtual field trips, no non-essential visitors, and no large assemblies

Cafeterias
When not eating in classroom, social distancing seating; disposable trays and utensils, items plated by staff; tables, seats, and pin pads disinfected after each class

Outdoor Spaces
Utilize for learning where appropriate

Multiple Entry Points
Where feasible to reduce bottlenecks

Bus
Provide assigned seats and coordinate the release of students to reduce congregating; utilize air conditioning and open windows to increase air flow

Plexiglass Partitions
Placed in areas throughout the school

Reduce Congregation
In various areas such as: cafeteria, recess, main office, clinic and the use of lockers, media center, and restrooms

Face Coverings
Face masks are required when social distancing is not possible.
