Ann Sexton, Superintendent of Schools
Oneida Independent School District

After deliberating with my family, I think it is best for me to step away from the Softball Program . The demands of the position and the feeling that I have laid a solid foundation for the next coach are the basis for my wanting to do so at this time. Everything is accounted for and I will provide the next coach with any information regarding equipment, etc.

Please accept my resignation, effectively immediately.

Respectfully,
