Office of the Garrison Commander

To the Army Families of Hawaii:

You have in your hand a very powerful tool to aid in the receipt of federal funding to support education in Hawaii's public schools. The Federal Survey Card that your child brings home enables the schools to accurately report federally connected student enrollments. This information is critical in order to receive federal funding and additional programs and services to offset the cost of educating your child.

You can help our schools by filling out the Federal Survey Card upon receipt and returning it to the school immediately the next day. By obtaining a 100% return rate from all Families, we will ensure maximum federal funding to compensate for lost revenue due to tax-free federal installations. Because of the struggling economy and many budgetary cuts, these cards are vital and a great means of getting the needed funds from the Federal Government.

I am encouraging every parent to consider this their duty to ensure our schools receive critical impact aid by returning the completed card promptly. Non-response could result in the loss of millions of dollars in federal funds that benefit both our military and local communities.

If you are unsure of your Address of Federal Property, please refer to the backside of this memo for a listing of Brigade Headquarter addresses. If you have any questions, please contact the Army School Liaison Office at 655-8326.

Sincerely,

  
Thomas J. Barrett  
Colonel, U.S. Army  
Commanding
