

CHAMLIAN ARMENIAN SCHOOL RECOGNIZED AS A HEALTHY FACILITY

Glendale, CA - Chamlian Armenian School is proud to have achieved the distinguished honor to be recognized among a short list of honorable mention list for the 2018 Healthy Facility Award Program. This is a collaboration between the *School Planning & Management* magazine, *College Planning & Management* magazine, and the Healthy Facilities Institute. The award recognizes schools that give regular, consistent attention to the following nine health factors: indoor air quality, chemical exposure, water quality, sound levels, lighting, cleaning, sanitizing, pest management, and ergonomics.

safety at Chamlian Armenian School is one of the most significant priorities. The school administration not only focuses on the campus's physical safety and security, but also health related priorities for our students, faculty and community.

Chamlian Armenian School is listed among many distinguished schools in the Honorable Mention category, which include the Washington State University, University of Nevada Las Vegas, School District of Escambia County Northwest/Beulah Middle School, and Magazine School. This recognition is very encouraging as now the school has a direct link with the Healthy Facilities Institute in collaborating with the organization and getting access to their resources. Furthermore, the recognition affirms that the school's ongoing commitment and investment in the physical health of the campus is very effective.

As a school, we are especially proud for this recognition as student
