The MISD Gifted & Talented Program promotes higher-level questioning and critical thinking skills. Students involved in the GT program are on track to take Pre-Advanced Placement courses in middle school and Advanced Placement courses in high school. What does all this mean? GT students are on track for academic and college success!

How is the new MISD GT stronger?

- The new GT program incorporates more computer and technology-based application skills.
- The GT program incorporates more science, technology, engineering and math (STEM) models to help students develop greater analytical skills.
- What does all this mean? GT students will be better prepared for AP-level STEM subjects and gain advanced technology skills!

MISD GT puts students on the path to success!
