RE: Geotechnical Scope of Work for Procurement  
Hattiesburg High School  
Hattiesburg, Mississippi

Dear Geotechnical Engineering Professional,

Please provide a proposal for the following Scope of Work for a geotechnical investigation for the referenced project.

#### SCOPE OF WORK

Services	Included	Not Included	Remarks
<b>GEOTECHNICAL INVESTIGATION</b>			
1. Drill and sample four (4) borings. One to a depth of forty (40) feet, one to a depth of fifteen (15) feet and two hand augers to a depth of ten (10) feet.	X		
2. Perform laboratory tests on representative soil samples to evaluate the engineering properties of the soils.	X		
3. Utilizing the results of the laboratory tests, perform engineering analysis to develop specific geotechnical recommendations for the foundation system for the Project.	X		
4. Prepare and submit an engineering report containing a plan showing the locations of the borings, logs of the borings, USCS soil classifications, soil strength properties, groundwater conditions, site preparation and backfill recommendations (such as over-excavation depth), and recommended foundation system for the Project with Alternatives (such as deep or shallow system).	X
