Subject: Many Thanks

To whom it may concern,

I William Ross Arden III am resigning effective 11-16-17 from my teaching duties in the oneida special school district.

This has all transpired from a series of unfortunate events. I have done nothing but try and do my job and make connections with students. In order to keep the best interest of the program in mind and at the counsel of the administration I am removing myself from the program.

I will always want what is best for the kids and the program and that is what has lead to this decision. This is not my wish but certain people have way more control over the oneida band program than the director will ever have.

I will do whatever is necessary to bring your next director up to speed on use of keys and music library etc. via liaison of Kevin Byrd.

Thank you for the wonderful opportunity in such an amazing system
Go Indians!

Mr. Arden

(ps.- I will still be in the community and will be an asset whenever you call me)
