

March 11, 2019

Dear Parents and Guardians:

Given recent safety concerns, I want to provide additional information to inform you (parents and guardians) of the process the District follows when a potential threat arises.

When the district is made aware of a potential threat, we immediately institute the following safety protocols:

- Contact local law enforcement, in conjunction with our School Resource Officer.
- Initiate our response under the guidance of our School Resource Officer.
- Operate under the direction of the responding law enforcement agencies.
- Students will return to their activities and the District will remove any safety protocols put in place once the concern is investigated and the concern is deemed non credible.
- A statement with updated information is created in consultation with law enforcement then distributed through our messaging system.

I want to assure you that the safety of our students and staff are the District's top priority. Every potential threat is taken very seriously by the District and law enforcement. Students and others who threaten our schools will be treated accordingly by the authorities and District.

Our goal continues to be clear communication with you. The district will continue to send you information and updates regarding safety concerns.

We encourage you to discuss these current events with your child and emphasize the seriousness of these issues.

Sincerely,

Andrew M. Doell
Superintendent
