

Academy Courses

- Advanced Biology
- Physics Honors
- Chemistry Honors
- Advanced Integrated Math II
- Advanced Integrated Math III
- Math Analysis Honors

For further information please contact Kristin Ford at: KFord@monroviaschools.net

For an application please visit: <http://mhs.monroviaschools.net> then go to the tab for Academic Programs, then MASA

Mission Statement

The mission of the Monrovia High School Math & Science Academy (MASA) is to offer a rigorous and challenging curriculum to Monrovia students interested in mathematics and the sciences. MASA is a comprehensive, four-year high school experience that offers a highly competitive college-preparatory program and seeks to prepare students for success in college-level math and science classes.

To be a MASA graduate, a student MUST complete 15 service hours per year, a junior project, and 4 AP courses, 3 of which are in the math and/or sciences. As a MASA graduate, students earn the designation stamp on their transcript and diploma; they wear the honor cords at graduation, and are recognized in the graduation program.

Approximately 22% (2017 data) of the student body at MHS is a part of MASA, which involves Advanced Placement classes, math and science clubs, a professional seminar speaker series, a junior year research project, service hours, and field trips that give students hands-on experience in the fields of math, science, engineering, and technology.

A Distinctive and Unique Program...

- Rigorous advanced courses that provide an excellent preparation for Advanced Placement college level courses
- Hands-on learning using probes, advanced calculators and computers
- Annual Service Hours Requirement
- Speaker Series Program that gives students access to professionals in the fields of math & science
- Junior - year research project
- Get - ahead summer school courses offered for 10th & 11th graders

Admission

- Admission to the MHS Math & Science Academy is contingent upon students completing an application (due date is printed on the application) and meeting the prerequisites.
- Applications must be accompanied by a current student transcript
- All applicants MUST complete an Entrance Exam. Please see your current math teacher for information if you are at Clifton or Santa Fe. If you are at another school, please contact Mrs. Ford for more information at: kford@monroviashools.net
- **Because of limited space, we may not be able to accept all applicants.**
