School _____ Grade _____

Technology Responsible Use

The aim of the Technology Responsible Use is to ensure that students will benefit from learning opportunities offered by the school's Internet resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. *At no time should there be any expectation of privacy when using school equipment, resources, or utilizing your email account.*

Policies are available on the county website under the District tab or upon request written copies can be provided. Policies include but are not limited to the following:

- Policy 3220-Technology in the Education Program
- Policy 3225/4312/7320-Technology Responsible Use
- Policy 3226-Internet Safety
- Policy 3227-Web Page Development
- Policy 3230 Copyright Compliance
- Policy 1710/4021/7230 Prohibition Against Discrimination, Harassment and Bullying
- Policy 4331- Assaults, Threats and Harassment

School Strategies: The school employs a number of strategies and has expectations for students when using the school internet and equipment.

General

- Internet sessions within the classroom are supervised by a teacher.
- Students will use a variety of internet tools to enhance their learning experience. All tools are examined by experienced educators and are used commonly in education today.
- Filtering software and or equivalent systems will be used in order to minimize the risk of exposure to inappropriate material. However, no filter is 100% effective.
- Internet Use may be monitored at school and on school provided devices 24/7. There should be no expectation of privacy when using school equipment or school network
- Students and teachers are provided with internet safety training on a yearly basis.
- Students will use the internet for educational purposes.
- Students should not disclose or publish personal information such as address, social security number or passwords etc.
- Students will treat others with respect at all times and will not take any actions that may disrupt the school day. Cyber bullying on/against anyone while using school resources or tools will be subject to school discipline and/or criminal charges.
- Students should not send or receive any information that is considered illegal, obscene or defamatory.
- Email accounts will be established for all students and teachers. The main purpose of this account will be for sharing assignments with teachers, collaboration and for accessing their google account for chromebooks. Accounts may be established for classroom instruction such as Canvas (Management System), IReady, math etc...
- Students will not tamper with computer hardware, software or circumvent content filters. Unauthorized entry into computers or vandalism to computer equipment or files will result in criminal charges.
- Students may be given opportunities to publish projects, artwork or school work on the World Wide Web.

Creative thinkers today, innovative leaders tomorrow

Technology Responsible Use and Parent Permission

Student Last Name _____ Student First Name _____

Technology Responsible Use

Student Agreement

I have read the Yadkin County Schools Technology Responsible Use and all related policies. (3220/3225/3226/4312/7320) (policies available on County Website or in school office) and I understand my responsibility when I access internet services at school with school equipment or with personal equipment. I understand that failure to adhere to these policy requirements will result in disciplinary action, including revocation of use privileges. Willful misuse may result in disciplinary action, and /or criminal prosecution under applicable state and federal laws. I understand there is no expectation of privacy when using school resources and understand this includes school provided email which may be accessed by administration to comply with state and federal laws.

Parent/Guardian Agreement and Consent

_____ As the parent/guardian of this student, I have read and discussed the Yadkin County School Policy regarding Technology Responsible Use with my child. I understand that this access is intended for educational purposes and that student users will be provided with supervision during class in using it and accounts for students may be set up by the school for educational purposes such as email, schoolnet etc.. I also understand that the school system makes a reasonable effort to filter internet access, but the school system cannot control the internet and all the information found on it. **I do hereby give permission for my child to independently access educational resources on the Internet and utilize school equipment. I understand the school provided email may be accessed by administration to comply with state and federal laws.**

_____ I **do not** give permission for the student listed above to independently access the Internet and/or use school equipment.
