Backed by the latest research and full of practical tips, you will leave with the tools you need to keep kids safe and help them take ownership of their digital lives.

Join us to learn more about:

- How kids and teens are using media and tech to create, consume, communicate, and learn.
- How to guide your kids in making safe and respectful digital choices.
- How to better understand, engage, and communicate with your kids about their use of social media.
- Tons of resources will be shared from Common Sense - <https://www.commonsensemedia.org/>.
