March 3, 2020

To: MTSD Families, Staff, and Volunteers

From: Amy Rex, Superintendent

The Center for Disease Control and Prevention (CDC) has established geographic risk-stratification criteria for the purpose of issuing travel health notices for countries with coronavirus (COVID-19) transmission. Level 3 is the highest risk stratification currently identified, which is defined as “widespread sustained (ongoing) transmission.” The following four countries are currently listed at a level 3 risk (this list is subject to change):

- China
- Iran
- South Korea
- Italy

In accordance with the VT Department of Health guidance, if you or your child(ren) traveled to one of these countries over the February break, then please notify them with your contact information so that they can follow up with you as appropriate. 802-863-7240.

Thank you
