District 4 staff returns for the fall semester

Addison School District 4 welcomed 25 staff members who participated in New Teach Orientation activities for three days this week. The new staff members were introduced to Administrators who shared advice and information for the start of the school year. They received handbooks, computers, IDs, and other necessary tools

of the trade, and learned about district policies and procedures. The group took a school bus tour of Addison to see the community and the location of the district's nine schools, before meeting their mentors and having the opportunity to get to know them before beginning to work in their classrooms.
