On December 19, 2016, the Board approved the Measure G project schedule option C and since then staff has been meeting with school staff and working with the construction management firm and architects. Following meetings at school sites and review of the schedule, it was necessary to make some modifications to the Option C project schedule. The adjustment is designed to reduce the necessity of portables during the construction phases in an effort to minimize the impact on parking and student play areas on campuses. The overall updated schedule can be found [here](#). The updated site specific construction schedules will be posted [here](#) as soon as available.

Please join us in welcoming Sharon Trieu-Quince, our Director of Facilities for Measure G, overseeing the implementation of Measure G modernization projects throughout the district. Mrs. Trieu-Quince comes to us with eight years of experience in San Francisco. She is a CA certified architect and a graduate from UC Berkeley.
