

June 2019

MEASURE SP CONSTRUCTION UPDATE

South Pasadena Unified School District

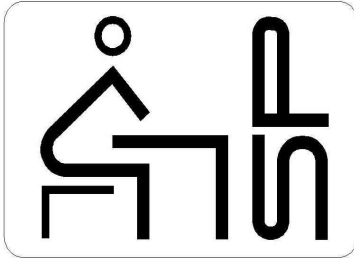

SPMS Old Gymnasium Rehabilitation Project

We are excited to announce that the rehabilitation of the Middle School Old Gymnasium will commence in June with an anticipated completion date of August 2020.

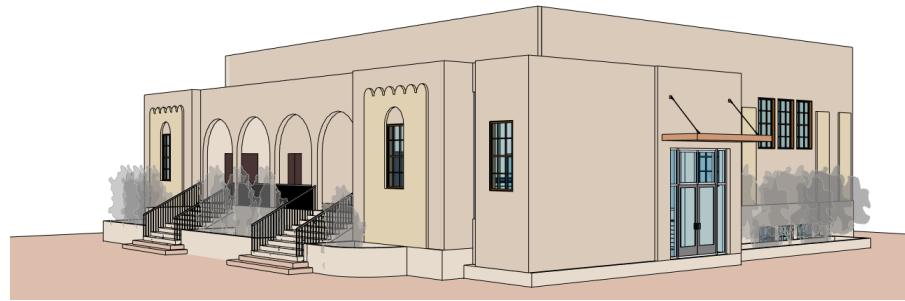

Temporary construction fencing will be installed to delineate the construction zone around the perimeter of the old gymnasium building. The first few months will

entail demolition of existing structures leading up to the foundation and seismic retrofit and utilities improvements.

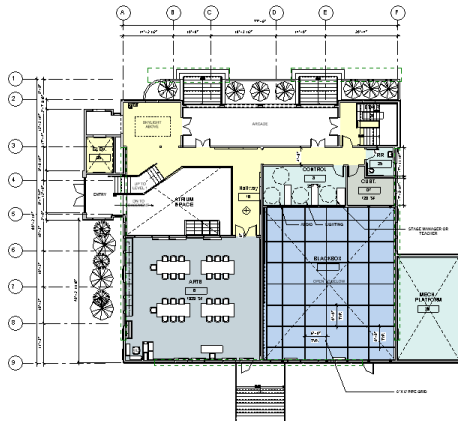

Monthly progress updates will be provided in the upcoming newsletters.
