

Elementary School District 159 is rolling out a new communication tool, School News App. The mobile app is a way to provide information about activities, events and news impacting our school community.

The school community can opt into receiving information by adding the app to their device. The app is available for both iOS and Android devices.

Following are the steps to download and install the app to your device;

Android Users

1. Go to the Play Store
2. Search Edlio
3. Select Edlio School News
4. Select School News By Edlio
5. Select Install
6. Click on Open
7. Search By Name
8. Type **Elementary School District 159** and click on the Matteson, IL selection
9. Click Add School
10. Click on Alerts/Enable Alerts

iOS Devices

1. Open the App Store
2. Search for School News by Edlio
3. Download the app
4. Open the App, the Add School window will open
5. In the Search by name field type, Elementary School District
6. Select the entry for Matteson, IL
7. Click on Add School
8. Click on the Alerts icon, located in the bottom left corner of your screen
9. At the Top of the window, click on Enable Notifications
10. You will be prompted to Allow notifications, click on the Allow option
