Dear ABCUSD Community,

The COVID-19 pandemic has changed the way our students attended school this year, and it will change the way they attend school next year as well. The ABC Unified School District is considering many options for the upcoming school year, in compliance with guidance from the state and county public health and education officials.

The options the District is currently considering consist of the following:

Hybrid Model:
The Hybrid Model is that students spend time learning at school (on-campus) and learning at home. Students are assigned to a group, and each group rotates being on campus and learning at home. When on campus, school will be similar to a regular school day. When not on campus, students will learn through online learning at home (OLAH) or independent work.

ABC Online Academy:
The ABC Online Academy would be a virtual school offered completely online with students learning at home. Students attending the ABC Online Academy will not attend school on campus. Similar to a regular school day, students will have specific class times (or class periods) and be required to attend their virtual online classroom Monday through Friday.

The decisions we make will ensure the safety and health of our students, families, and staff. The District will continue to share information with the ABC community as we move forward.

Sincerely,

Dr. Mary Sieu
Superintendent
