Open Q & A to follow

Open to parents
PK-12 graders

Thurston High School
William F. Weber Auditorium
26255 Schoolcraft Ave.
Redford Charter Twp, MI 48239

With the advancement of smartphones, video games, and social media, schools and parents are tasked with protecting and guiding students to use technology for good while also preserving their mental health. Often the negative and harmful effects of technology are the only stories to hit the media and soundwaves.

Come hear the light and dark side of the story and walk away with practical and tangible tools to strengthen your relationship with your child while balancing their device use and its' impact.

Katey McPherson is an educational consultant and speaker who has spent the past 23 years advocating for children as an educator, school administrator, and guidance counselor. She speaks extensively about Internet safety, social media responsibility, and childhood brain development.
