

# TOWN HALL MEETING

## VAPING..... WHAT PARENTS NEED TO KNOW!

Recently, the use of electronic smoking devices among children and young adults has increased at an alarming rate. E-cigarette use among middle and high school students increased 900% during 2011-2015. According to the Surgeon General of the US, 1 in 5 high school and 1 in 20 middle school students are currently using e-cigarettes.

This workshop will provide parents/guardians with information about vaping and other e-products teens are using.

Learn about current trends, risks involved and strategies for talking with your teen about this important issue.

Working together, we can keep our youth safe from the dangers associated with these devices.

### DATE:

Wednesday,  
February 27<sup>TH</sup>
